Soft Matter for All: Celebrating Diversity and Creativity in Soft Matter

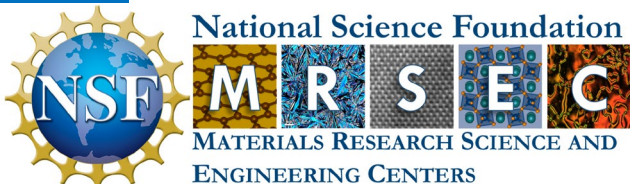

DMR MRSEC Program

A **one-day symposium** to promote early-career researchers in the field of Soft Matter, with a focus on those from underrepresented groups was held on Oct. 23, 2020. The event was open to all undergraduate and graduate students, postdoctoral researchers, faculty and individuals interested in soft matter.

PCCM partnered with the University of Delaware MRSEC and organizers included PCCM's **Datta, Priestley, and Stone**. The event featured 2 keynote lectures, 18 early-career speakers, an introduction for undergraduates, and professional development sessions. The symposium had 400 registered participants from 16 countries for a combined **>1,000 live viewers**.
