

REU NJ/NY partnership: Princeton, Columbia and NYU work together

REU 2107: New MRSEC partnership

On **July 7, 2017** the MRSECs of Princeton University, Columbia University and NYU partnered to improve the experience for their REU students for a day of science and networking at Princeton.

Prof. Barry Rand provided a one hour research presentation to the students. Professor Rand's talk was followed with two hours of networking and a social lunch, **followed by a tour of PPPL (Princeton Plasma Physics Lab).**

Students from all three MRSEC REUs reunited on **August 1, 2017** at Columbia University. Each REU student presented their research during a poster session. The Princeton, Columbia and NYU MRSECs REU partnership will continue in 2018, and beyond.

Daniel Steinberg, Director, Education Outreach
Princeton University
