

# Stars of Materials Science: DMR 1420541 Princeton Center for Complex Materials (PCCM) Daniel Steinberg, Bob Cava, Kathryn Wagner

On March 21, 2015, **Professor Bob Cava** led an engaging presentation for over **400 guests** (two sessions) about the amazing Chemistry and materials science

Special guests Kathryn Wagner, Dan Steinberg and Prof. Cava's graduate researchers also excited children ages 9-14 and their parents with fun group activities, stimulating Q&A's, and engaging demonstrations to enlighten the public about materials science research.

This was the second annual Stars of Materials Science lecture designed to enlighten the public about materials science. In April 2016 Craig Arnold will "Star" in our 3<sup>rd</sup> annual event.
